Sanitation & Weather Situations

From time to time the Bob Welch Aquatic Center may experience an unexpected delay in opening, partial closure or complete closure. Below are the guidelines staff will use in the event of inclement weather or a sanitation emergency, and how it will impact your group.

Weather

The air temperature must be 65 degrees for the Aquatic Center to open. If the air temperature does not reach 65 degrees by the scheduled opening time, the Aquatic Center will delay opening. Additionally, if the air temperature drops below 65 degrees while open, the Aquatic Center may close temporarily and/ or close early for the day.

Inclement weather includes thunder, lightening, and extreme downpours. Should any of these weather conditions arise, the Aquatic Center will either delay opening or temporarily close. When thunder and lightening are present, there is a minimum of a 30 minute closure. The 30 minute time frame resets for each sighting of lightening or audible sound of thunder.

There are no refunds or complimentary passes for weather related closings.

Sanitation Emergencies

Sanitation emergencies occur when there is fecal matter or stomach contents from vomit in the pool. In following the guidelines issued by the Centers for Disease Control, the following protocols are in place:

- Solid fecal matter: ~30* minutes closure from the time chemicals enter the water
- Loose fecal matter: Closure for the day
- Vomit with stomach contents: ~30* minutes closure from the time chemicals enter the water
- Vomit without stomach contents (water): No closure needed

*Closure time is based on chemical levels and will vary based on the situation

If your group has been at the Aquatic Center for less than two hours when a sanitation emergency occurs, complimentary passes will be issued for paid entries only. A group representative will need to check-in with management prior to leaving.

Information & Cancellation Hotline

Any time the Aquatic Center has an adjusted schedule, the information & cancellation hotline will be updated. Often inclement weather and sanitation emergencies happen without notice and the Aquatic Center staff's focus is ensuring the safety of patrons that are in the facility. For that reason, we cannot guarantee notification if there is a closing. The best practice is for your group to check the information & cancellation line prior to traveling to the Aquatic Center. If there is no message or an outdated message, that means the Aquatic Center is open regular hours. We encourage you to use this resource. The information & cancellation line number is (507) 457.8220, option 3 for the Aquatic Center.
